

satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what you are permitted to hear. Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

I travel all over the USA and the XM RADIO is the best thing to have  
i need the traffic report to plan my trips the regular station do not do it as well as xm

thank you JAMES M. CALLINA
